

OJ FLORENDO RAYATCHI

SOFTWARE DEVELOPER | AI-FOCUSED BUILDER | CREATIVE DEVELOPER

Windsor, Berkshire, UK | ojflorendo.connect@gmail.com | ojfr.me | LinkedIn | GitHub

PROFESSIONAL PROFILE

Final-year BSc Computing and IT (Software) student and software developer building practical digital products with Next.js, React, TypeScript, Python, and responsible AI-assisted workflows. Experience spans accessible web development, data and training, UX/UI, e-commerce, marketing content, and digital operations. Focused on clear communication, security-conscious implementation, maintainable delivery, and evidence-based testing.

CORE CAPABILITIES

Development Next.js, React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Python	Quality & delivery Git/GitHub, Vitest, Playwright, accessibility, technical SEO, CI, Vercel
AI & automation Prompt engineering, narrow assistant prototypes, knowledge workflows, human-reviewed AI-assisted engineering	Data & operations Microsoft Excel, Power BI, data analysis, training content, e-commerce and digital operations

SELECTED PROJECT

Personal Portfolio & Professional Platform

Live | 2026

ojfr.me | github.com/omarjosephf/ojflorendo-portfolio

- Designed and built a responsive, accessible professional platform using Next.js, React, TypeScript, Tailwind CSS, and typed content modules.
- Implemented a security-conscious foundation with a nonce-based Content Security Policy, server-side contact validation, generic errors, rate limiting, and server-only credentials.
- Established automated unit and browser testing with Vitest and Playwright, GitHub CI, preview QA, controlled releases, and Vercel deployment.
- Documented AI-assisted engineering transparently while retaining human direction, verification, release authority, and responsibility for the final product.

PROFESSIONAL EXPERIENCE

E-commerce & Social Media Operations Lead

Jan 2026 - Present

Golden Galore Luxury | UK / Remote

- Manage day-to-day online content, product presentation, and customer-facing digital materials for a luxury-goods brand.
- Photograph and edit products, add watermarks, write descriptions, and prepare listing, promotion, raffle, giveaway, and live-selling content.
- Coordinate reusable Canva templates and communications to maintain a consistent brand presentation across digital channels.

Digital Marketing & Training Content Lead

Dec 2025 - Present

American Advanced Executive Training (AAET) | Remote

- Create marketing copy, professional course outlines, agendas, programme summaries, and training descriptions for international audiences.
- Plan and schedule social-media content and produce Canva visuals for executive training programmes.
- Use AI tools to support drafting and refinement while reviewing the final wording for clarity, accuracy, and professional tone.

AI, Python & Data Training Facilitator

Jul 2025 - Nov 2025

LPC / International Client Projects | UK / International

- Delivered and co-delivered professional training in Python, data science, financial analysis, prompt engineering, and AI fundamentals.
- Explained Python libraries, exploratory data analysis, Excel analysis, and machine-learning concepts through practical learner-focused examples.
- Supported both small and large professional groups with structured technical explanations and hands-on learning activities.

ADDITIONAL EXPERIENCE

Freelance UX/UI Developer

Jun 2023 - Jul 2023

Self-employed | Remote

- Designed and developed simple landing pages with clear, responsive layouts and user-focused structure.
- Applied wireframing, page hierarchy, visual refinement, and basic front-end implementation to improve usability.

Pharmacy Assistant

Apr 2023 - May 2023

Windsor Pharmacy | Windsor, Berkshire

- Supported customer-facing pharmacy operations and worked accurately with pharmacy software, e-prescriptions, EHR systems, and inventory tracking.
- Handled regulated information carefully within established operational processes.

EDUCATION

BSc (Honours) Computing and IT (Software) — The Open University | 2023 - Expected 2026

Final-year student focusing on software, computing, data, and AI-related skills.

High School Diploma in General Science — Penn Foster High School, USA | 2019 - 2023

GPA: 3.8 / 4.0.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

PCEP - Certified Entry-Level Python Programmer — Python Institute | July 2025

Business Intelligence: Data Analysis and Reporting Techniques — London Premier Centre | June 2025

Certified UX/UI Designer Bootcamp — School of UX Design, UK | July 2023

Analyze Data with Microsoft Excel — Codecademy | July 2025

One Million Prompts: Prompt Engineering — Dubai Future Foundation | Completed July 2025

The Art of Storytelling — IESE Business School, University of Navarra | July 2025

CURRENT LEARNING - EXPECTED COMPLETION SOON

CS50's Introduction to Programming with Python — Harvard University / edX | In progress - expected completion 2026

Self-paced introductory Python programme covering functions, variables, conditions, loops, objects, exceptions, file I/O, libraries, testing, and debugging. [Course page](#)

AI Consultant Course — Careerpreneur Academy | In progress - expected completion 2026

Eight-week programme covering AI foundations, consulting workflows, prompt and tool use, automation, responsible implementation, client discovery, proposals, and personal positioning. Listed as current learning only; no completion certificate is claimed. [Course page](#)
